Objective

Computer Programming student at Humber Polytechnic seeking a Winter 2026 co-op position to apply and expand skills in software development, web technologies, databases, mobile applications, system administration, networking, and technical support, while gaining hands-on industry experience.

Projects

Throne of Dust | Java, Spring Boot, MySQL

- Designed and implemented a unique MMO backend featuring base-building, resource gathering, PvE raids, and PvP conflict.
- Built core systems including player authentication, group/squad management, and character trait mechanics.
- Developed a raid and extraction system combining cooperative and competitive gameplay with risk and betrayal elements.
- Utilized Java 17, Spring Boot, Spring Data JPA, Hibernate, and MySQL for scalable backend architecture.

Summary of Skills

- Languages: Java, Python, JavaScript, TypeScript, SQL, HTML, CSS
- Frameworks & Tools: React, Node.js, Express.js, Tailwind CSS, Spring Boot, Git, GitHub
- Databases: MySQL, MongoDB, PostgreSQL
- Other: Linux/Unix, Bash scripting, VS Code, IntelliJ IDEA
- Soft Skills: Problem-solving, time management, adaptability, teamwork
